

NEIGHBORHOOD ALLIES

Dear Ally,

We are excited to request your support of the **1st Annual Healthy Neighborhoods Celebration**, where Neighborhood Allies will proudly introduce our Healthy Neighborhoods Framework and celebrate the people and organizations working to create and maintain healthy neighbors and neighborhoods in Pittsburgh. Our Healthy Neighborhoods framework identifies five core elements that represent the change we want to see in low income neighborhoods:

1. **Market Confidence**-- Neighborhoods with market confidence have a strong housing market for all income levels and a thriving business district that contributes to rising housing values and residential sales prices. The community manages market forces to prevent displacement of people and local businesses and the neighborhood is a place where people want to live and invest time, resources and capital.
2. **Quality of Life**-- Neighborhoods that have a high quality of life are places where residents are able to access the larger economy and quality neighborhood amenities. They are able to build assets, accumulate wealth and connect to economic opportunities and their neighborhood is safe and the environment and social determinants of health positively impact the well-being of families and neighbors.
3. **Celebrated Neighborhood Image**-- Neighborhoods with a celebrated image are places that are visually appealing and desirable to all, celebrating neighborhood pride and attracting new people and investment while retaining new and long-term residents.
4. **Community Ownership**-- Neighborhoods with community ownership have residents, small business owners, community organizations and institutions serving as active participants and key decision-makers in neighborhood revitalization projects. Local residents and leaders have the capacity and community power to create positive change and shape the future of their neighborhood.
5. **Equitable Development**-- A neighborhood that prioritizes equity is one where everyone participates in and benefits from the region's economic transformation — especially low-income residents, communities of color, immigrants, and other at risk of being left behind. Equitable development requires an intentional focus on eliminating racial inequities and barriers and making investments that yield healthy, safe and opportunity-rich neighborhoods that reflect their culture.

Using our Healthy Neighborhoods framework as the inspiration, this inaugural event will bring together resident leaders, community development professionals, and local stakeholders to honor and celebrate five examples of exemplary local work being done to create positive social impact in low income communities and the people and organizations working hard every day to build healthy neighborhoods across Pittsburgh. We will also be recognizing the **"Ally of the Year"**, an individual or organization which has embodied what it means to be a neighborhood ally by helping Neighborhood Allies advance our mission of supporting the people, organizations and partnerships committed to creating and maintaining thriving neighborhoods.

The benefits of sponsoring the Healthy Neighborhoods Celebration include exclusive recognition/naming rights of this year's event, acknowledgement and branding at the event and in all marketing and outreach materials, complimentary tickets to the event, and more! Full details and specifications for the different levels of support can be found in the attached Sponsorship Packet.

Thank you in advance for your consideration of our request. If you have any questions or need more information, please contact Talia Piazza, Senior Program Manager for Communications and Marketing at 412 471-3727 x215 or talia@neighborhoodallies.org.

Sincerely,

Presley Gillespie
President
